GETTING VALUE FROM TRAVERSE 18

We like to think of Traverse as less of a conference and more of an environment for networking, having fun, finding collaborations and a place to learn and improve your digital content creation skills.

By the end of Traverse 18, we hope you leave having learnt a few key things that you can apply directly to your own work.

We'd love your feedback, so feel free to tweet during the conference, or Instagram your photos. You can tag your tweets and photos with #Traverse18 and #RotterdamMakeltHappen.

We hope you enjoy Traverse 18!

THANK YOU

Traverse 18 wouldn't have been possible without the help and support of Rotterdam Partners. So a big thank you to them and especially Anne Klapmuts for all her hard work to make Traverse 18 Rotterdam happen.

We're also proud to have all our sponsors on board for Traverse 18, putting on the event wouldn't have been possible without their support. So a big "thank you" to them.

We'd also like to thank everyone involved in the organisation and especially our extremely talented speakers.

THE VENUE

LPII

At Traverse we like to find special venues that are a little bit quirky and have their own character. This year we are hosting the conference at LPII.

Built in 1953 to a design by Van den Broek & Bakema, LPII spent several decades as a workshop building for the Holland America Line. LPII is the only building on Wilhelmina Pier that survived the vast post-war building work in Rotterdam. The building has since been renovated and is regularly used for business, cultural events, festivals and exhibitions.

LOCATION: LPII Wilhelminakade 326, 3072 AR Rotterdam, Netherlands

VENUE FLOOR PLAN

LPII - GROUND FLOOR

On the ground floor of LPII, you'll find our exhibition space where you can mingle and chat to attendees, brands and sponsors.

We also have our Inspiration Stage for some inspirational sessions plus the Business Stage with a focus on the business side of being a content creator.

LPII - FLOOR 1

On the first floor you'll find most of our classrooms for sessions as well as the Website Health Check and Pro Bars.

THE PROGRAMME

We've put together our programme to help you decide which sessions to attend in order to get the most out of Traverse 18. Having said that, don't be afraid to take a chance on a session that at first glance isn't quite your cup of tea... sometimes you'll be surprised at what you'll learn in these sessions.

Bloggers are, at the heart of it, storytellers. We want to share our tales, and bring our readers along with us as we get under the skin of a new destination. It's our words - along with our photos, videos & our personalities, of course - that bring our travels to life. In the same way that we all want to hone our photography skills, or become better videographers, we can also improve our words to draw people in even more. Learn how to become a better writer, and how to make sure your words have the biggest impact, in this interactive session, and find out how writing a novel has made me a better blogger.

13:30 - 14:30 *How I lost my blogging mojo and got it back***KASHYAP BHATTACHARYA (BUDGET TRAVELLER)***Beginner/Advanced Session**Seminar*

Last summer, I lost my blogging mojo. 9 years of blogging professionally and despite winning a few major blogging awards and tourism marketing awards for content campaigns, I was fed up, jaded, questioning my relevance and whether I was enjoying it anymore. In a world where marketers obsess with numbers and not with the quality of content, where expertise and authority count for almost nothing, where influencers present travel destinations in unrealistic irrelevant ways and ask stupid amounts of €€€, where is the true value in content and working with bloggers? How do we stay relevant? Plus what about your personal relationships, having time for yourself and having a world outside blogging?

I may not have all the answers in my Traverse presentation but I am going to try. May have you have some ideas and thoughts to share? This session is for you then. Hop along and join me in what I hope will be an informative and entertaining session.

15:00 - 16:00 *How bloggers can frame a place differently***EMILY GOUGH & ANDREW SIM (ALONG DUSTY ROADS)***Beginner/Advanced Session**Creative*

With the growth of highly visual digital mediums, images may now be more important to representing a place than words. However, too many influencers are taking the same pictures of the same few places.

The role of the influencer is to push boundaries and show new perspectives visually and thematically.

This talk will showcase new approaches and easy ways to help us all deliver a more meaningful visual experience of a destination to ensure your content stands out, tells your personal story and adds value to your reader's experience.

16:15 - 17:15 *Why you should start a podcast LIVE***LUCY LUCRAFT***Beginner Session**Practical, Mini Session*

Podcasting is one of the fastest growing ways to consume content. It has a phenomenally high rate of engagement and, if you have a blog, is an amazing way to connect with a new audience and grow a community of super-fans.

Sponsorship is fast and furious and numbers aren't as prescriptive as in blogging so NOW is the time to get ahead of the pack and add another string to your bow.

10:00 - 11:00 *SEO - How to find lucrative keywords for your business***CORY VARGA***Beginner/Advanced/Industry Session
Seminar, Mini Session*

Understanding SEO is a great skill. This is because you are in full control of your website's traffic. Should any social media change its algorithm, or go bust, you are not affected because your search traffic is your own, based on your amazing keywords and well-crafted content. SEO is the art and science of allowing a search engine to easily act as the gateway between the information a person seeks and the content you make available on your blog.

Whilst SEO is brilliant for organic traffic, it doesn't always answer the questions for passive income. In order to target the right traffic that converts, you must follow a set of steps in order to find lucrative keywords, which in turn bring organic traffic and increase passive income via affiliate marketing. In this session, I want to explain how to achieve this by creating a persona which represents your target audience, understand the concept of purchase intent, target the right keywords and market the article so you can rank well.

11:30 - 12:30 *Defying the English dominance: why you should blog in another language (or not)***NIENKE KROOK & SOFIE COUWENBERGH***Beginner Session

This session explores the pros and cons of blogging in another language. It offers participants step-by-step guidance in deciding whether they should run their blog in one or two languages. It also shows them what pitfalls to avoid and advantages to make use of when they defy the dominance of English.

Seminar, Mini Session*

"No, I didn't see an increase in sales, but 'wow' look at my engagement metrics" is a popular mantra that often leads small businesses to invest time and money into areas that can cause marketing confusion. As influencers, it's important to understand the core concerns brands want to address when it comes to addressing numbers. It's beneficial to understand the language decision makers are using, so that you can effectively communicate with them when pitching collaborations and campaigns.

As business owners, employees and marketers, to understand where best to invest your marketing resources, you must first understand what your brand represents. If you want to increase your conversion rates, you need to identify, learn, understand and measure how well customers move through your online ecosystem.

This session will help you identify whether engagement or conversion marketing methods, or a strategic combination of both is the most advantageous for your brand in order to maximize ROI and increase sales conversion rates.

In most cases what you can charge comes down to negotiation and understanding how the pricing for photography is structured. I will be sharing some of my insights to building a pricing structure that you feel confident in. On the Saturday night at Traverse, we'll be enjoying drinks and food in the fantastic ballroom of the Wereldmuseum, just across the water from the Traverse 18 conference venue. We'll also be treated to some incredible live music throughout the evening as we mingle and relax following the first conference day of this year's Traverse.

Rotterdam is a city that's always under construction and so is the Wereldmuseum (museum for ethnology). The museum has a 130 year history in its beautiful building, one of the oldest in the city. Visit the small exhibition about 30 of the most interesting pieces from our collection from all over the world. The objects tell the story of how the world came to Rotterdam.

This evening we'll serve you live music from two international acts, street food and tasty drinks. The roots of the acts that operate under the flag of ÇA VA MIEUX

(Yurrit & Day Fly) lie in Rotterdam. On this evening, both acts will present an exclusive preview of their upcoming projects by giving a live performance. These projects are 'under construction', but not for long anymore. Partnering with Noisey, Dan Fly and Yurrit will present their newest sounds—what better place to do so than in the gorgeous ballroom of Wereldmuseum Rotterdam.

PARTY TIME

THE TRAVERSE 18 CLOSING PARTY AT CLUB VIBES

It's tradition that a good night out in Rotterdam ends in Club Vibes. So where else would we end the Traverse weekend? This small club in the city centre has been popular with locals for almost 10 years. When the cafes and bars close, Vibes continues through to the early hours. The club attracts a mixed crowd and there is always a friendly atmosphere with the DJ playing mainstream pop and good old classics.

On Sunday night, Club Vibes welcomes the Traverse attendees from 7PM with cocktails, pizza slices and later on in the night, typical Dutch bitterballen.

We hope you can join us for the final event of the Traverse 18 week as we end the conference with a great party!
